When: Wednesdays 9:45-12:00

Current Availability: Yes. [Register now!](#)

Our PEP program focuses on helping 3 to 4 year old children get a jump start. The heart of PEP is that children learn best through play and movement. PEP has a subtle structure that directs the children in their play towards learning the beginning concepts.

PEP program includes:

- Creative Play to stimulate imagination
- Storytime
- Active Gymnastics Class
- Fun Crafts & Art Projects
- Academic focus on ABCs, numbers,& colors

Developed as an enrichment education , it is an excellent way to prepare your child for school or to provide a boost of confidence to a child already enrolled. Your child's enthusiasm for knowledge will grow as the class engages in activities to stimulate creativity and self expression. Each week a letter and number is introduced to the class and explored through song, sound, writing, crafts, and movement This array of concepts and ideas are brought about through play, circle time, group games and a gymnastics class. PEP strives to instill a love and excitement for learning and strives to provide a positive learning experience for your child that enhances his or her level of development.
